

# *Over in a Stable* Nativity Nightlight Activity

Directions:

1. With the help of a parent, cut out the silhouette of the stable below.
2. With craft glue, glue the silhouette to the *inside* of your jar so that it's attached to the side of the jar.
3. Glue a thin layer of tissue paper around the outside of the jar. You can also decorate the lid with Christmas ribbons or pinecones. Make it festive!
4. Place the string of lights inside the jar and turn them on. Close the lid. Enjoy your nativity nightlight!
